

MICHAEL CHUKWUEMEKA B. NWORJI

Philippine & Nigerian Dual Citizen | Based in Nigeria | Available Worldwide, Flexible Across Time Zones

chukznj@gmail.com | +234 701 416 1462 | [Portfolio](#)

PROFESSIONAL SUMMARY

Fresh Graduate Full-Stack Developer (BS Computer Science, AMA Computer College, Philippines) with hands-on experience shipping and deploying two complete web applications end-to-end: a recruitment automation platform built during a remote internship, and a capstone attendance system I developed independently. Proficient in PHP, MySQL, and modern JavaScript, and quick to learn and adapt — currently expanding into TypeScript and Angular. Dual Philippine/Nigerian citizen based in Nigeria, offering flexible availability across time zones for distributed, remote teams worldwide. Looking to bring that same hands-on, ship-it approach to a junior software developer role, gaining real-world experience in a professional environment.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, Vanilla JavaScript (ES6+), Responsive/Media Queries, UI Design, DOM Manipulation
- **Backend & Database:** PHP, MySQL Schema Design, Query Optimization, CRUD Operations
- **Tools:** Git, GitHub, XAMPP, WAMP
- **Currently Learning:** TypeScript, Angular

PROFESSIONAL EXPERIENCE

Web Developer Intern (OJT) — HireStream | Automated Applicant Tracking System

A full-stack web application built from scratch to automate company hiring workflows and applicant notifications. Developed as part of my On-the-Job Training (OJT).

God's Will International Placement, Inc. | Remote (Philippines) | March 2026 – May 2026

[GitHub](#) | [Live Preview](#)

Tech Stack: HTML, CSS, PHP, MySQL, Vanilla JavaScript

- Designed and built a recruitment automation platform from scratch, replacing the company's manual, spreadsheet-based hiring process and streamlining the end-to-end application pipeline for overseas job seekers.
- Developed a responsive, customer-facing website and UI, tested across desktop and mobile breakpoints to support applicants across time zones and devices.
- Architected the database schema and backend logic to securely capture, validate, and store sensitive applicant data.
- Deployed and maintained the system on a live cloud hosting environment, ensuring continuous public availability while collaborating remotely with the placement team throughout development.

PROJECTS

Web-Based Student Attendance Management System

Solo Undergraduate Thesis & Full-Stack Capstone — AMA Computer College, Tacloban City | 2025 – 2026

[GitHub](#)

Tech Stack: PHP, MySQL, HTML, CSS, Vanilla JavaScript

- Engineered a dual-portal (admin/faculty) full-stack application using PHP 7.4 and a normalized, 8-table MySQL schema.
- Implemented security protocols including bcrypt password hashing, isolated user sessions, and parameterized SQL queries to prevent injection attacks.
- Refactored and optimized code performance throughout development, contributing to an Outstanding Evaluation Score of 6.79 / 7.00.

EDUCATION

Bachelor of Science in Computer Science (Online Learning) | AMA Computer College — Tacloban Campus, Philippines

Expected Graduation: 2026 (Diploma & Transcript of Records pending)

CERTIFICATIONS

- Introduction to Cybersecurity — Cisco Networking Academy | May 2024
- JavaScript Essentials 1 (JSE) — Cisco Networking Academy | Dec 2023
- PCAP – Programming Essentials in Python — Cisco Networking Academy | Dec 2023
